MeDITERRANEAN™
fruit and vegetable extracts

v2.0

 **Cynamed®**

Standardized to Caffeoylquinic Acids (>4%) and Inulin (>18%)

Cynamed® is an extract from Spanish artichoke buds (*Cynara scolymus* L.) to **support complete digestive health.**

HOLLISTIC COMBINATION

Artichoke has been traditionally used to support normal hepatobiliary function, better digestion and cardiometabolic health, benefits mainly attributed to caffeoylquinic acids, but the presence of inulin in Cynamed® enhances the prebiotic activity and holistically complements the health benefits of artichoke preparations.

PROVED EFFECTIVENESS

An in vitro study showed a remarkable prebiotic activity of Cynamed®, promoting the growth of healthy gut bacteria (*Bifidobacteria* and *Lactobacillus*) while increasing Short Chain Fatty Acids (SCFA), which reflected beneficial microbial metabolic activity. **Nutrients 2020, 12, 1552; doi:10.3390/nu12061552**

WATER ONLY EXTRACTION

Pure-Hydro Process®, an eco-friendly extraction method using ultrapure water as the only solvent.

VERTICALLY INTEGRATED

Euromed controls each step of the supply chain, from seed to final quality extract
